

ABSAROKEE COMMUNITY FOUNDATION
Final Grant Report Information

The Absarokee Community Foundation (ACF) requires each grantee to complete a Final Grant Report to be turned in to the ACF within two (2) months after the grant funds have been expended or within ten (10) months of the grant award date (by April 1 of the following year) prior to the next grant application cycle.

ACF is very interested in following up on the usage of grant monies that we expend. Having a full report of the impact of programs we help fund allows our grant screening committees to determine how best to release our grants for the future, and to guarantee that our donors' money always goes to worthwhile causes. We also use the information for public relations. It helps us to gain the interest of news media and to attract attention to the many good works of the programs in the Absarokee area that ACF helps to fund. Your input from this report is greatly appreciated and required if your organization intends to request additional funds in the future.

Note: By submitting this report, you are authorizing ACF to use your name and quotes from this report in publications and with the media.
